

Fact Sheet Number 6.

The Gibbet

The following information should start you on your journey into the past

A country woman on horseback passed the Gibbet while an execution was taking place.

At her sides were large wicker baskets.

When the head of the victim was chopped off, the force of the axe caused the head to bounce towards the woman.

One report said that it landed in one of her baskets.

Another report said that the head grabbed her apron with its teeth and stayed there for some time.

Your job is to interview people who are there to find out what really happened.

Use Adobe Audition to create the atmosphere at The Gibbet on Market Day using sound effects and a commentary.
